Math Club Meeting #4: Doodle with Math Club

On Monday, November 14th from 1-2 PM, in G-220, we will be watching video clips of math doodling and trying to create some doodles. This is a fun way to be introduced to different topics in math. We hope to see you there!

All are welcome at Math Club meetings. So bring a friend! For more information about the Math Club, please visit our website at:
